Feston
LED Ribbon
1 LED Ribbon + 1 Stem + Wall Support

Feston
LED Ribbon
Product by Ligne Roset

8m long outdoor LED ribbon designed to be used as a garland. It may be hung between two stems; a stem and wall support; or, with the addition of the wall support and hook, it can be hung from a stem to a tree, or other stable element, for example. It is advised to bring all elements indoors during the winter. Total power 80W, emitting 8,300 Lumens or the equivalent of a 500W incandescent bulb. Color temperature 3,000K (warm white). Protection rating for LED ribbon, electrical feed, and switch: IP 65. Supplied with a manual switch and a 5m black electrical cable. LED ribbon, stem, and 1 wall support with hook may be purchased seperatly.

Designed by Tous Les Trois
Finishes:
LED lighting with black cable and optional stem in black lacquer.
