

Lowlands

Occasional Table

Product by Ligne Roset

Lowlands is a low table that is both decorative and functional. Its four surfaces are positioned at various heights, which creates a dynamic visual rhythm. Its storage space is optimized in a way that is as convenient as it is elegant, with no concessions of finesse nor visual lightness that characterize it, enhanced by its single-material treatment. Blue steel is obtained by progressively raising its temperature. When it cools on contact with the air, it develops a thin layer of calamine which gives it natural protection against oxidization. Black lacquered steel structure and tops in blue steel. Large version with structure and tops in Epoxy white lacquered steel.
