Nils

Sectional

Product by Ligne Roset

Introduced in 2013, Nils is a timeless model with harmonious and balanced lines. The Nils name is attributed to Nils Holgersson, the little boy created in 1906 by the novelist Selma Lagerlöf. The box spring frame and cushions are 100% overlaid with a compartmentalized duvet of down and goose feathers. This means one thing: visual fluffiness - it appears exceptionally cozy and welcoming. Its simplicity is offset by the sophistication of the seams giving it a casual elegance. Aside from being extremely comfortable, it offers many possible combinations and two heights. The collection includes a sofa, a medium sofa, a chaise, a right/left arm sofa, a right/ left arm medium sofa, a right/left arm chaise, an armchair, and an ottoman.

Designed by Didier Gomez
