Wall Lamp

Product by Ligne Roset

The gilded metal of this sconce, with its changing shimmer effect, is immediately eye-catching: enjoy following the contours of its petals, perforated and sculpted like the fine lace of a giant filigree jewel, and the play of light and shadow which emanates from it. The best techniques (laser cutting of metal, LED lighting), put to work to bring enchantment to everyday life. Wall light with gilded nickel-plated steel wall support and rosette in 1/12" - 2 mm thick gilded nickel-plated laser-cut steel. Transparent PVC cable; transparent manual switch. It can be wired directly into the wall, or plugged in, with the cord running down the wall. 25 1/2" - 65 cm LED ribbon, giving a total power of 11 W and emitting 1,040 lumens, or the equivalent of an 85 W incandescent bulb. Color temperature 2700 K (warm white).

Designed by Désormeaux et Carrette

Materials:

Nickel Plated Steel

Dimensions:

Ø 27 1/4" D 1 1/2"
