

Taru

Sofa

Product by Ligne Roset

Through the Taru settee, the designer's intention is to create a comfortable place to sit which shows off the craftsmanship and expertise of Ligne Roset. Taru is comfortable and welcoming, with its fully upholstered base giving it true character. The seat is also intertwined with its subtly curved backrest in a bi-material treatment. It is available as a large settee, medium settee and 1-arm settee (left or right). This model's originality also springs from the vast potential for mixing materials (fabric and leathers) and colors thanks to the superb rear section of the back, which may be customized in leather. This is a settee with two faces which is thus worth showing off as much for its front view as for its upholstered rear view. As for the seat, it is complemented by a dedicated cushion to further accentuate the model's comfort, and a footstool which echoes the upholstered base style of the settee.

Designed by Sebastian Herkner

Finishes:

Various fabric & leather options available.
