U-Turn

Floor Lamp

Product by Ligne Roset

With U-Turn, Eric Jourdan wanted to create a floor lamp true to the tradition of the French arts décoratifs. At first glance, it may be perceived as classic, but it is not short of originality. As its name suggests, the U-shaped form is a contemporary conception inviting you to dive back into French tradition to rediscover this period of design. Floor lamp with metal base in Epoxy satin black (RAL 9004) lacquered steel. Square base 45 x 45 cm, thickness 15 mm. Cylindrical shade (Ø 50 H 40 cm) in gris clair-colored chintz. Transparent PVC cable. Transparent foot switch. Requires 1 x 330° 20W E26 LED globe bulb Ø 120 mm, color temperature 2,700K (warm white), 2,000 Lumens.

Designed by Eric Jourdan
